Trish Sait	0412 334 019	Communications & Marketing
Ewan White	0448 662 637	Roads & Infrastructure

Update on Hamilton Park water storage

The water storage system at Hamilton Park has survived well this year and no restrictions have been required. This situation is being monitored regularly and at present estimates, our total capacity is about 25ML or 30% of the total capacity of the system.

This is not, however, the total usable capacity as the top dam must be kept full for use in the advent of a fire, if this unlikely situation were to arise. This means that a more accurate figure of the remaining usable water storage is around 10ML or 12%.

As we don't expect that we will have any significant inflows to the system from rain for the next two months, and we cannot pump from 15 Mile Creek until June, we ask that everyone remain considerate of the low dam water levels when using water in the next few weeks.

In the near future it may be necessary to implement further water restrictions so please look for signs posted at the park entrances.

Details of the current water restrictions are available on our website

Garden Club News

On Monday 26th of February Karen Place, Doreen Wheeler, Tina Norton, Rewa Wallace and Gwen Ipoliti met to freshen up the community native garden. It was a productive and fun morning. Thanks to Tina for organising the event and providing a cuppa and yummy biscuits.

Our next Garden Club get-together is in Tina's garden on the last Monday in March. Please do come along.

Please contact **Tina Norton** for further details ... 0419 880 761

Wishing you all a very Happy Easter and fun school holidays!
